Format for Presentation of Best Practice

- 1. Title of the Practice:** Blood Donation Camp Under Blood Group Detection and Conservation Scheme of Government of Maharashtra in association with Local NGO (Rotary Club, Shegaon.)
- 2. Goal:** A working relationship between Counselor and students is an essential part of academic success. A growing body of research shows that a good counseling relationship is advantageous to the mentor's own success. Good Counselor a help students gradually understand how their objectives fit into the particular graduate degree program.

The objectives and goal of this practice is as below

- To address and mitigate the problems faced by students in their academic and family environment
- Maintenance of students' valuable time.
- Avoidance of unnecessary social problems like non availability of Blood , Fulfillment of blood Bank requirement to patient during COVID – 19 Period and literate to the students and common public about evils of deficiency of Blood which have ill effect on human body
- Upgrading of student knowledge about to donate blood in bulk number so it will save life of the needful people
- To give suitable guidance to improve blood purification process in the human body and coordination time to time to every year to college new students and categorize them various Blood group So, easily they available at needful and emergency situation . 37 students including common people of Shegaon town donated

3. The Context: The final goal of education is not merely knowledge accumulation but service to humanity. Thus this best practice was initiated to step up extension services in the College Under this program , we teachers adopted few bad habitual activity students to which we provide remedial measures , also counsel them to address and mitigate the problems faced by students in their academic and family environment, to inculcate in our students sensitivity and responsiveness to social problems and sometime if needed provide educational aids such as textbook, notes etc; by which their higher education should be continued. Hence teachers of the institution are linked through Blood Donation Camp Under Blood Group Detection and Conservation Scheme of Government of Maharashtra, who will act as a counselor, mediator and coordinator in resolving the student's problems.

4. The Practice: Blood Donation Camp Under Blood Group Detection and Conservation Scheme of Government of Maharashtra is the key to success for all those involved in graduate education, and we hope these resources will be useful for faculty, students and staff alike. The most important dictum of the institution is to build a best future to the students who are coming educationally background from rural areas. The goals place above being implemented during the Blood Donor counsellorship.

5. Evidence of Success: As proof to above statements and practices, the following things can be underlined: The mentor has maintained close observation of the students and encourage some students to participate in Social activity conducted last year out of which seven students were short listed for Social and recorded enthusiastic responses from them when we has taken feedback from students.

6. Problems Encountered and Resources Required: Since from the inception the students enroll with this institution are from rural background they felt shy and afraid to disclose their problems. Initially the practice faced some communication gap and coordination problems. Blood Donation Camp Under Blood Group Detection and Conservation Scheme of Government of Maharashtra counseling programme struggled to maintain records and observations. In a good number of the higher educational institutions, power backup and internet connectivity are the two foremost problems. Besides, the short of sufficient staff and building are other challenging issues. But our most important focal point is to make maximum use of available resources. In spite of the above, we are trying our best to overcome these problems.

7. Notes (Optional): Some faculties limit the responsibilities of Blood Donation Camp Under Blood Group Detection and Conservation Scheme of Government of Maharashtra counseling

programme to merely discharging their role as advisor. The role of advisor usually is limited to guiding academic progress. The role of counselor is centered on a commitment to advancing the student's career through an interpersonal engagement that facilitates sharing guidance, experience and expertise. This practice needed the student share and a obligation to the goals of the scholarly enterprise and a desire to succeed in their life.
