13) Use of ICT Application in Teaching PPTs, Videos and Apps

- 1) Created What's app group of students
- 2) Organized online lectures and completed syllabus
- 3) Provided study material & practice problems
- 4) Provided questions for internal assessment
- 5) Received answer scripts in PDF file and complete Internal Evaluation
- 6) Prepared set of multiple choice questions on each subjects and provided to students.

Use of ICT in Teaching:

Modern age is age of ICT-information communication technology. ICT plays important role in education. It has Many advantages in teaching learning process. Teachers and students are the two pillars in education system. Both are benefited by use of ICT. ICT makes teaching more effective by use of charts, diagram, graph and figures which can be shown by using ICT devices such as computer, laptop, projector etc. It increases efficiency and skill of teachers. It makes learning easy and interesting. Students can understand subject easily and remember it for long time. Use of ICT is helpful in classroom teaching and distant education. Uses of smart phone have opened new avenues for distant education. MOOC and online courses can join Nemours students at one and the same time. It helps in mass education and reduces cost of education by saving time, labour and money.

Covid -19 Pandemic adversely affected the whole world. Lockdown adopted for controlling mass spread of pandemic made all the activities stand still. Education system was also adversely affected. Formal class room teaching became impossible and so use of ICT became in habitable. The concept of e-learning grew very fast and there was a great revaluation in education system. All the academic activities were completed by using ICT tools, teaching, internal assessment and exam were conducted by using smart phones.

When first wave of Corona was over, offline teaching was started. However, due to out break of second wave of Corona, Formal Classroom teaching was banned. So, Online teaching created and all the students of the class were included in the group. Owing to personal problems students of each class were appointed as group admin. They helped in arranging online classes on google meet. Online classes were conducted regularly so as to complete the syllabus in time. Group admins helped me in sending study material, practice problems and multiple choice questions for benefit of all the students. Assignment questions for internal evaluation and unit
